SUMMARY

Web Developer with proficiency in HTML, CSS, and JavaScript. Experienced in designing and implementing user-friendly web applications with a focus on performance optimization and cross-browser compatibility. Seeking to leverage technical skills and collaboration experience in a dynamic web development role.

SKILLS

HTML, CSS, Javascript, React, Next JS, Node.js, Express, PostgreSQL, Prisma, RESTful APIs, Typescript, Git, Responsive Design

WORK EXPERIENCE

Laz Parking

Valet Driver

Nov 2024 - Present

Neptune, NJ

- Managed daily parking and retrieval of over 200 vehicles, ensuring safety and efficiency under high-traffic conditions
- Delivered exceptional customer service by clearly communicating valet procedures and addressing guest inquiries
- Coordinated vehicle flow to minimize wait times and optimize parking space utilization
- Maintained careful attention to detail to prevent vehicle damage and ensure customer satisfaction

PROJECTS

Crypto Dashboard

Developer

Jan 2025 - Present

- Implemented a Figma design to create a seamless and interactive UI with Next.JS and React
- Utilized Git for version control throughout the development lifecycle, managing branches, tracking changes, and collaborating efficiently on project updates
- Built a fully responsive user interface using Tailwind CSS, ensuring seamless layout adaptability across mobile, tablet, and desktop devices
- Solved client-side rate-limiting issues by using Next.js API routes as a proxy for data fetching, improving reliability and preventing errors from frequent client requests
- Managed global state and streamlined data fetching using Redux Toolkit and RTK Query, improving performance and reducing boilerplate code

Developer Portfolio

Developer

May 2025 - Present

- Designed and developed a personal developer portfolio using Next.js and React to showcase projects and technical skills
- Applied Tailwind CSS to build a responsive UI, following responsive design principles for mobile, tablet, and desktop compatibility
- Deployed the portfolio on Vercel, utilizing Git for version control and continuous deployment

EDUCATION

Brookdale Community College

Computer Science Program, Web Site Development Option, A.A.S

Sep 2022 - May 2024

Rutgers, The State University of New Jersey

Bachelor of Arts: Video Production

Sep 2018 - May 2021
